# JDS

## Where Innovation Meets Steel

JDS – Al Jawda Steel is a leading provider of precision engineering solutions and custom steel structures across the UAE and GCC. With a strong foundation in advanced fabrication techniques, we specialize in delivering high-performance, durable, and cost-effective steel systems for industrial, commercial, and architectural applications. From concept to completion, JDS is committed to engineering excellence, structural integrity, and tailored solutions that meet the highest standards of quality and safety.

# VISION & MISSION

## Vision

---

To be a leading force in the steel fabrication industry, recognized regionally and globally for our craftsmanship, commitment to quality, and contribution to building a stronger, more resilient future.

## Mission

---

To deliver high-quality, innovative, and sustainable steel fabrication solutions that meet the evolving needs of our clients across diverse industries. We are committed to excellence in engineering, precision in execution, and integrity in every relationship.

WE OFFER

# STAINLESS STEEL FABRICATION

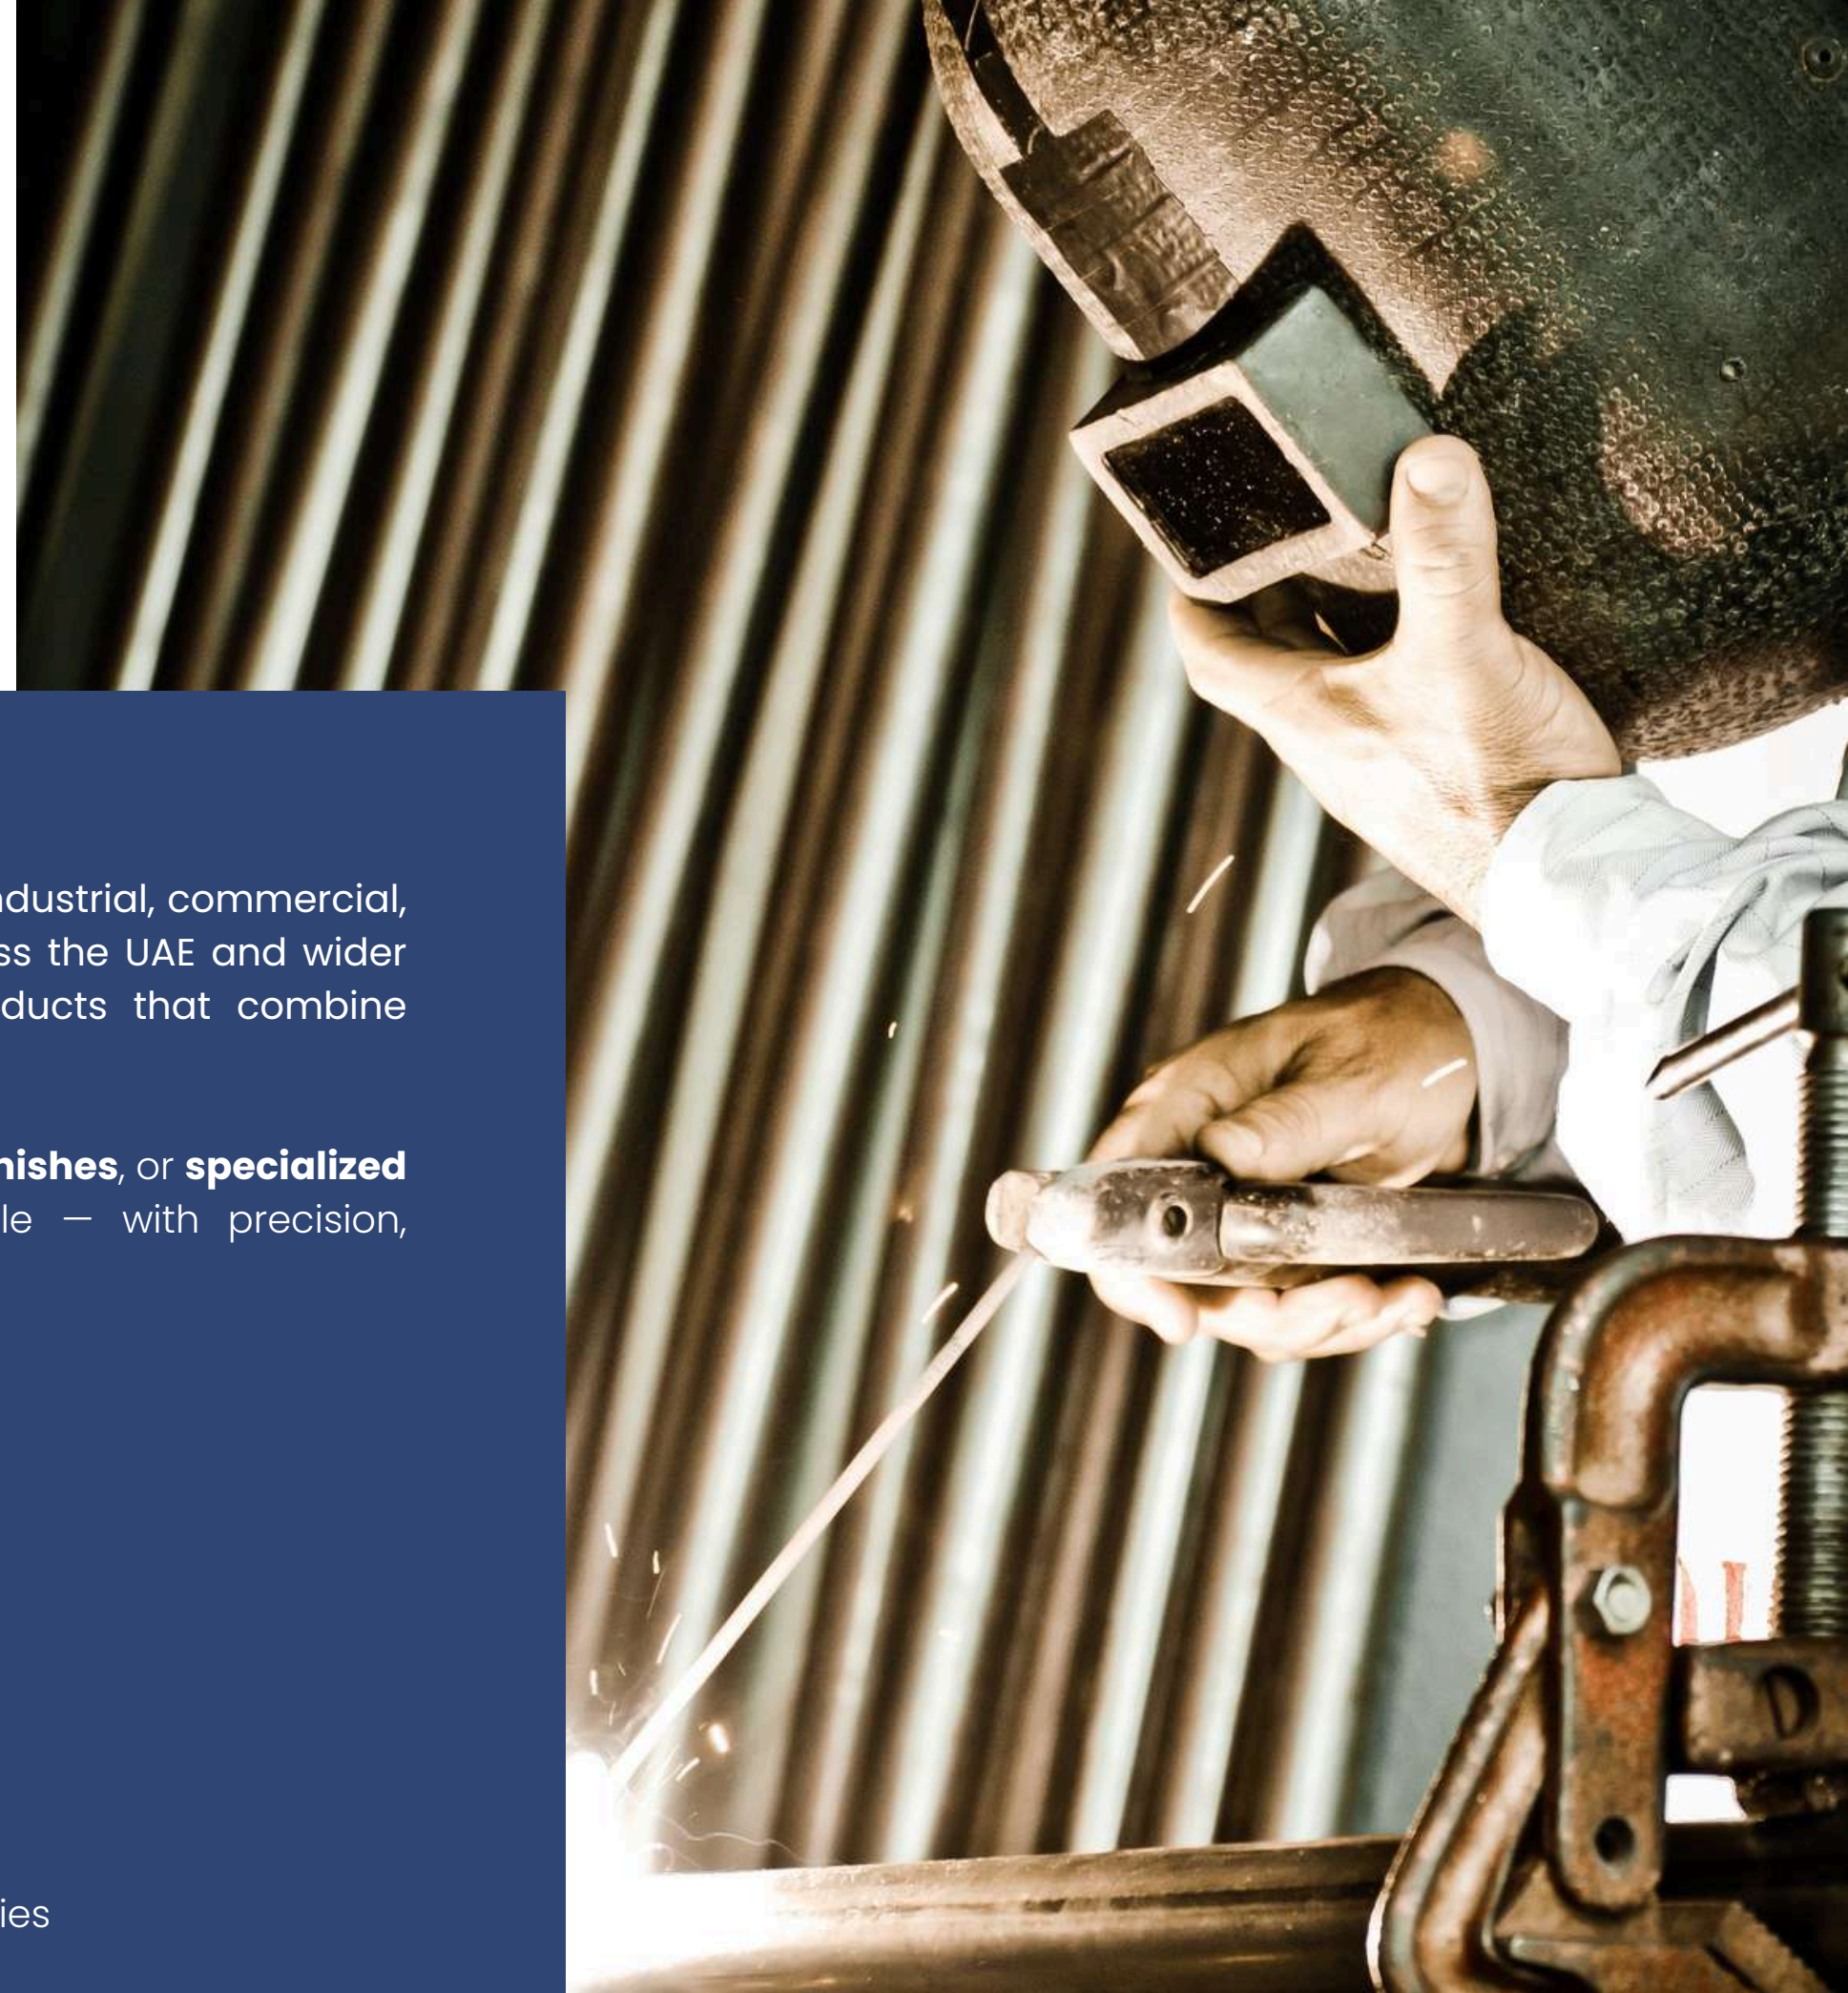

## Precision-Crafted Stainless Steel Solutions

At JDS (Al Jawda Steel), we specialize in custom stainless steel fabrication for industrial, commercial, architectural, and infrastructure applications. With a proven track record across the UAE and wider GCC region, we deliver high-quality, corrosion-resistant stainless steel products that combine durability, aesthetics, and engineering excellence.

Whether you require stainless steel components for **structural use**, **decorative finishes**, or **specialized industrial environments**, JDS is equipped to handle projects of any scale — with precision, professionalism, and full compliance to global quality standards.

We offer:

- **Custom Stainless Steel Structures & Frames**
  - For architectural, industrial, and commercial projects.
- **Stainless Steel Handrails, Ladders & Platforms**
  - Fabricated to safety and dimensional standards for interior and exterior use.
- **Bollards, Barriers & Guards**
  - Engineered for security and urban infrastructure applications.
- **Decorative Stainless Steel Elements**
  - Cladding, panels, facades, and trims for architectural enhancement.
- **Food-Grade & Sanitary Stainless Steel Fabrication**
  - Ideal for kitchens, clean rooms, pharmaceuticals, and food processing industries

WE OFFER

# ACCESS PLATFORMS

## Custom-Engineered Access Solutions for Safe, Efficient Work at Height

At Al Jawda Steel (JDS), we specialize in the design, fabrication, and installation of custom access platforms engineered for safety, durability, and compliance with international standards. Serving clients across the UAE and GCC, we deliver tailored solutions for industries that require safe and reliable work-at-height access — including construction, aviation, manufacturing, oil & gas, and industrial maintenance.

Whether you're working in tight spaces, elevated environments, or high-risk areas, JDS provides custom-built steel access platforms that improve safety, accessibility, and operational efficiency.

We provide a wide range of **custom steel access platforms** built to match specific applications and structural requirements:

- **Static Floor-Mounted Platforms**
- **Wall-Mounted Access Platforms**
- **Portable Access Platforms**
- **Suspended Access Platforms**
- **Custom-Designed Platforms for Specialized Maintenance**

Our platforms are engineered to serve a variety of functions such as **HVAC maintenance**, **skylight access**, **equipment servicing**, and **sky bridges connecting multi-level structures**.

WE OFFER

# BARRIERS

## Engineered Protection for Industrial, Commercial & High-Risk Zones

At Al Jawda Steel (JDS), we manufacture and supply a comprehensive range of steel barrier systems designed for safety, security, and impact protection across a wide range of industries. From basic protection barriers to high-security, crash-rated solutions, our barrier systems are trusted by clients across the UAE and GCC for their strength, durability, and customizability.

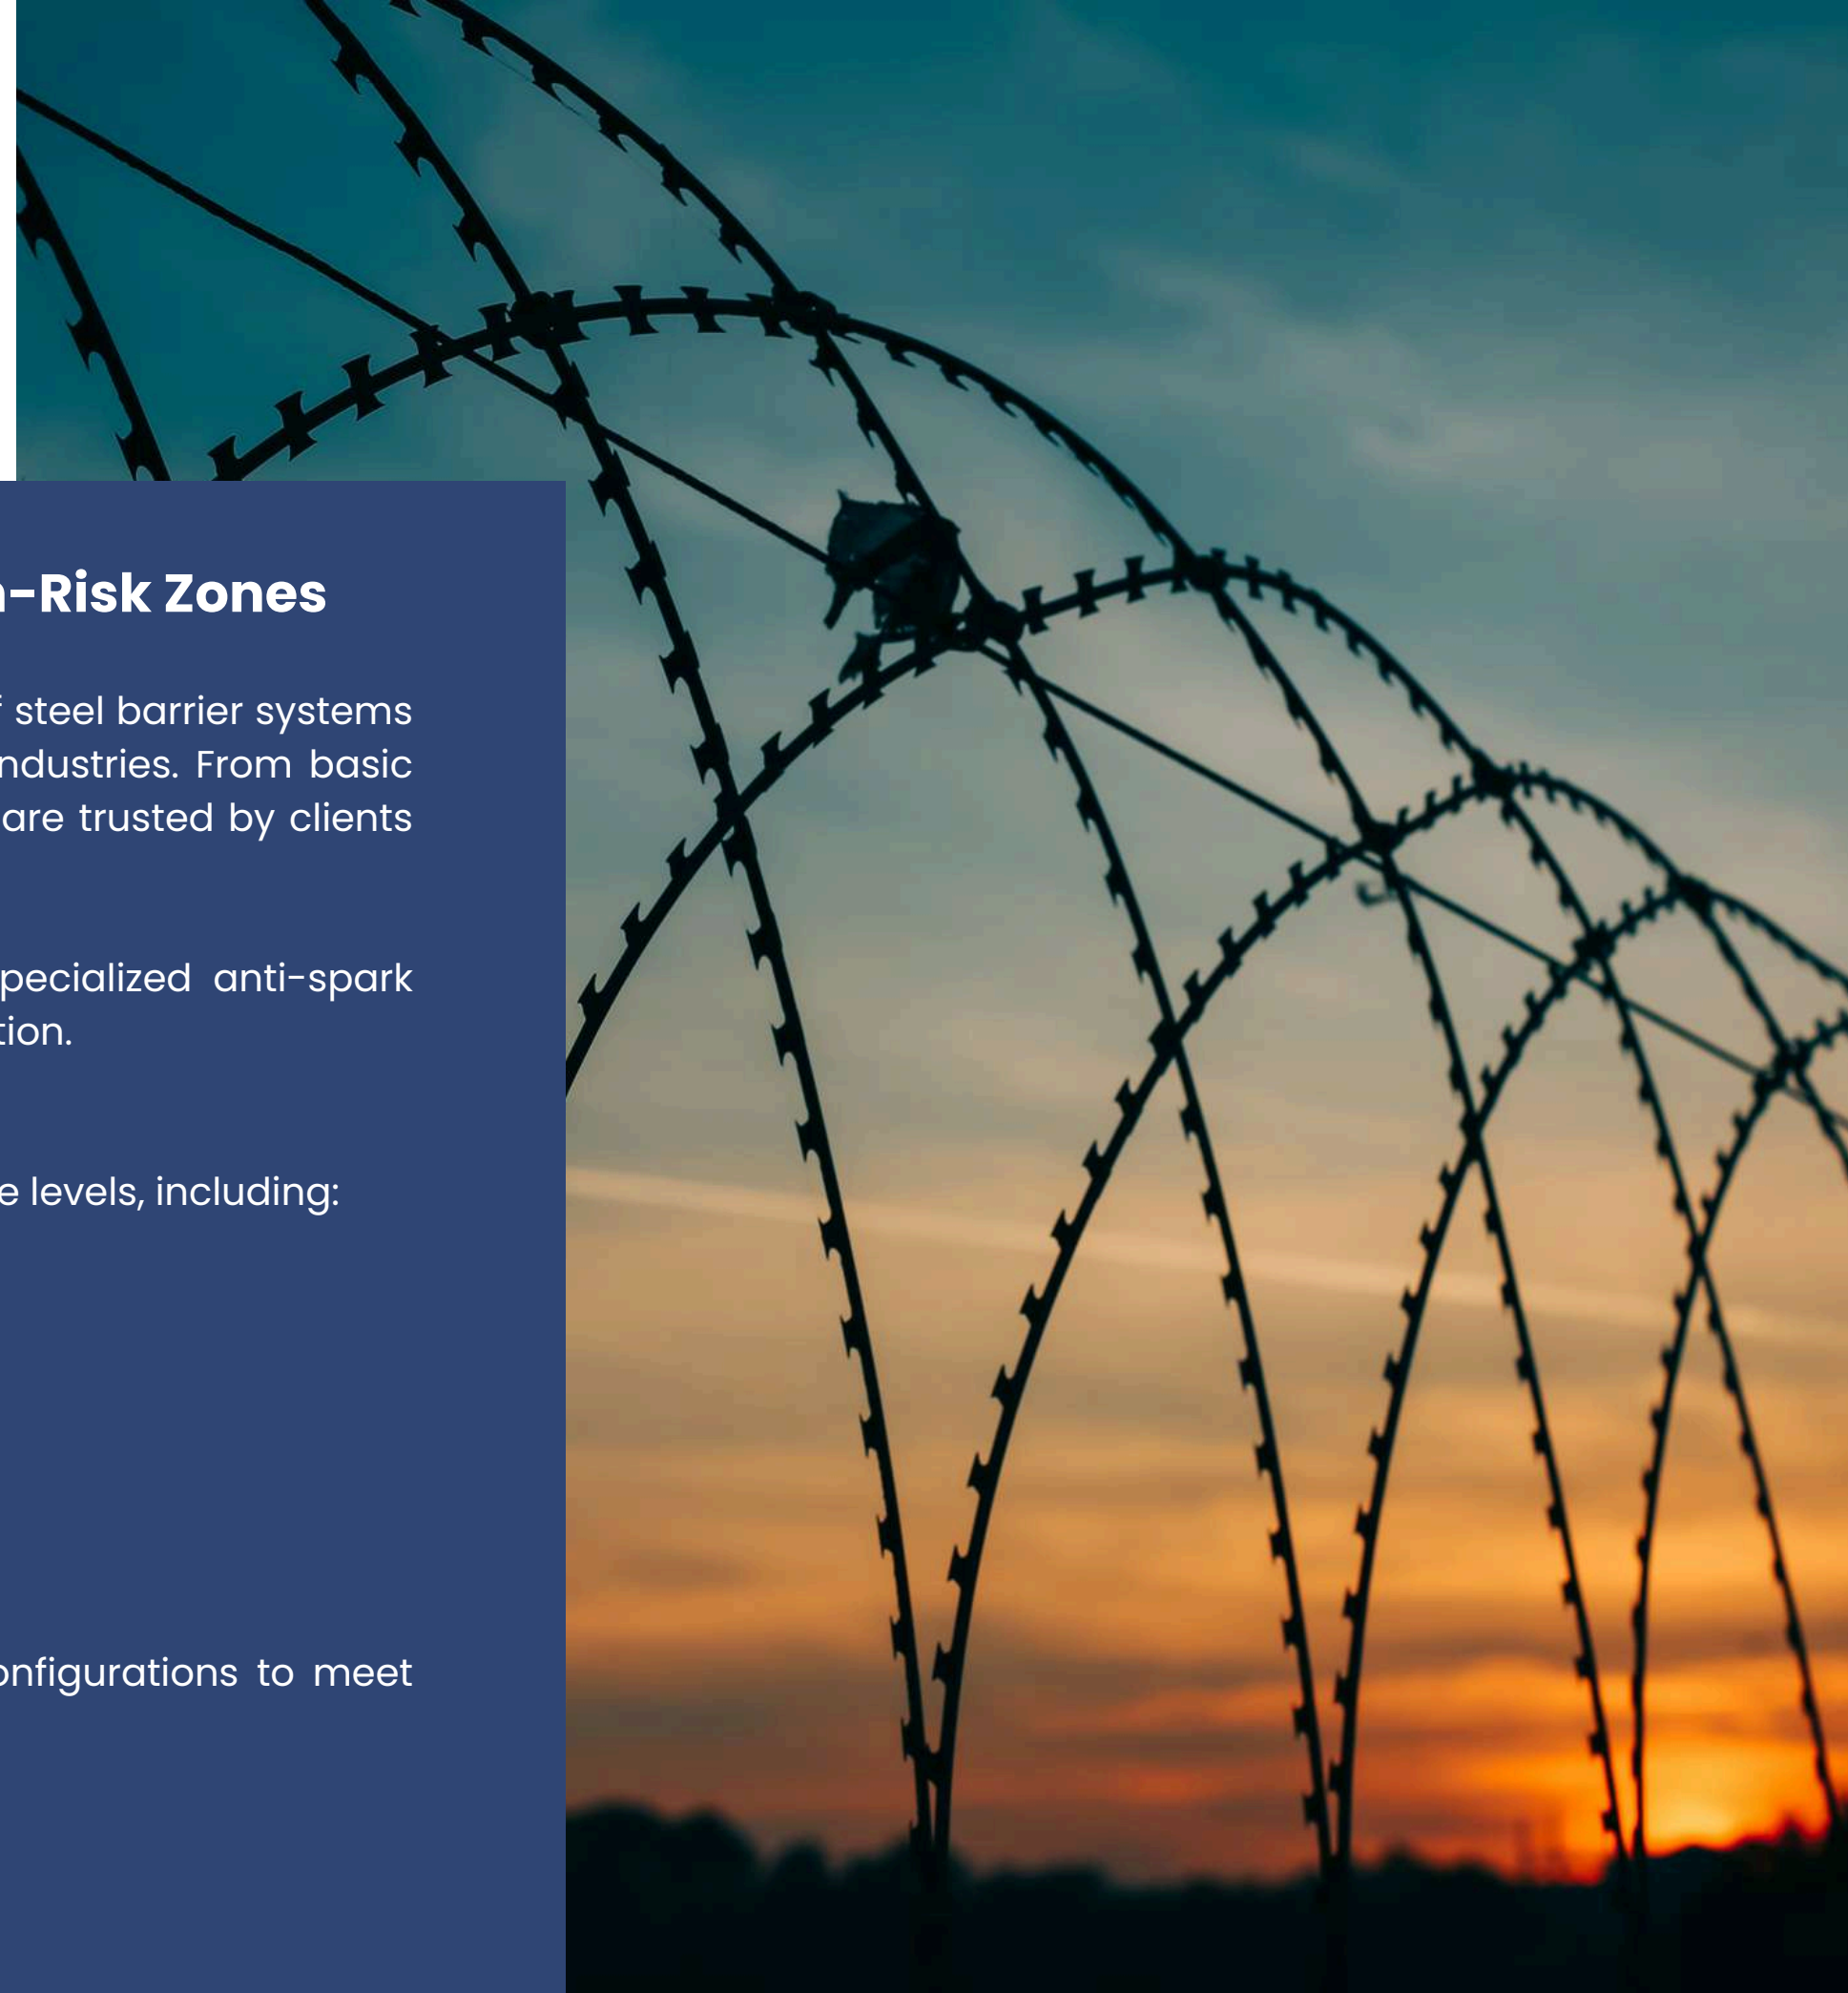

Whether you need vehicle impact barriers, pedestrian safety solutions, or specialized anti-spark systems for hazardous zones, JDS has the right barrier solution for every application.

### Our Barrier Product Range

Our steel barrier systems are available in multiple designs and impact resistance levels, including:

- Hoop Barriers
- Arm Barriers
- Crash & Impact Protection Barriers
- Fall Arrest Barriers
- Height Restriction Barriers
- Hostile Vehicle Mitigation (HVM) Barriers / Crash-Rated Barriers

Each barrier type is custom-designed and fabricated in various sizes and configurations to meet site-specific and safety-critical requirements.

WE OFFER

# BOLLARDS

## Secure. Define. Enhance. Premium Bollard Solutions for Every Environment

At JDS (Al Jawda Steel), we design, manufacture, and supply a complete range of high-performance bollards that combine security, functionality, and architectural appeal. Our bollard solutions are trusted across the UAE and GCC for protecting urban, industrial, and high-security environments – while seamlessly integrating with surrounding landscapes and building aesthetics.

Whether you need anti-ram protection, vehicle access control, or aesthetic streetscape enhancement, JDS provides customized bollards tailored to your project's technical and visual needs.

### Our Bollard Types & Materials

JDS offers bollards in a wide range of materials, styles, and protection levels to suit every application:

- Stainless Steel Bollards (304/316)
- Mild Steel & Galvanized Steel Bollards
- Wrought Iron, Wood & Concrete Bollards
- PVC & Polycarbonate Bollards

Available in fixed, removable, retractable, and fold-down models, our bollards come in custom sizes, designs, and finishes—from satin and mirror polish to weathered and rustic coatings.

WE OFFER

# CANOPIES & SHADE STRUCTURES

## Stylish, Durable, and Engineered for the GCC Climate

At JDS – Al Jawda Steel, we specialize in designing, fabricating, and installing custom steel canopies and architectural shade structures for commercial, industrial, and public spaces across the UAE and GCC. Our solutions combine aesthetic appeal with structural durability, providing year-round protection from sun, rain, and harsh weather conditions.

Whether you're enhancing the exterior of a commercial building, adding functionality to an industrial site, or designing elegant shading for urban spaces, JDS delivers engineered canopy systems that stand the test of time.

### Our Canopy & Shade Solutions

We offer a versatile range of steel canopy and shading systems tailored to meet functional, environmental, and architectural requirements:

- Entrance Canopies & Walkway Covers
- Designed to protect entrances, driveways, and walkways while complementing building architecture.
- Parking Shade Structures
- Robust and weather-resistant structures for residential, commercial, and public parking areas.
- Industrial Loading Bay Canopies
- Built to provide protection for operations, staff, and goods during loading/unloading.
- Retail & Mall Canopies
- Stylish shading solutions for storefronts, outdoor seating, and shopping areas.
- Urban & Landscape Shade Structures
- Including pergolas, sail shades, and free-form architectural covers for parks, public plazas, and hospitality zones.

WE OFFER

# FENCING & PERIMETER

## **Strong. Secure. Built to Withstand.**

At JDS – Al Jawda Steel, we deliver robust, long-lasting, and visually appealing fencing and perimeter security solutions across the UAE and GCC. Whether for industrial, commercial, infrastructure, or residential applications, our fencing systems are designed to offer maximum protection, access control, and site demarcation—all while enhancing the overall appearance of your property. From high-security compounds to aesthetic boundary enclosures, JDS offers custom-fabricated fencing solutions tailored to meet the unique demands of each project.

### **Our Fencing Product Range**

- Welded Mesh Fencing
- Ideal for industrial zones, warehouses, and logistic parks.
- Chain Link Fencing
- Cost-effective and reliable solution for residential and utility enclosures.
- Palisade Fencing
- High-security steel fencing suitable for critical infrastructure and commercial facilities.
- Decorative Steel Fencing
- Blending security with design, perfect for villas, parks, and urban landscapes.
- Anti-Climb & Razor Wire Systems
- For high-risk sites requiring additional intrusion protection.
- Temporary & Mobile Fencing Panels
- Used at construction sites, events, and temporary security zones.
- Automatic Sliding Gates & Access Control Integration
- Designed for seamless security system integration.

WE OFFER

# STREET & STEEL FURNITURE

## Designing Durable Comfort for Urban Spaces

At JDS – Al Jawda Steel, we specialize in the design, fabrication, and installation of premium street and steel furniture that elevates the functionality and visual appeal of urban, commercial, and industrial environments across the UAE and GCC region. Our custom-built steel furniture is crafted to withstand harsh climates while enhancing public and private spaces with modern, durable, and low-maintenance solutions. Whether you're furnishing a city park, commercial complex, transit area, or corporate campus, JDS delivers tailor-made street furniture that blends form, function, and durability.

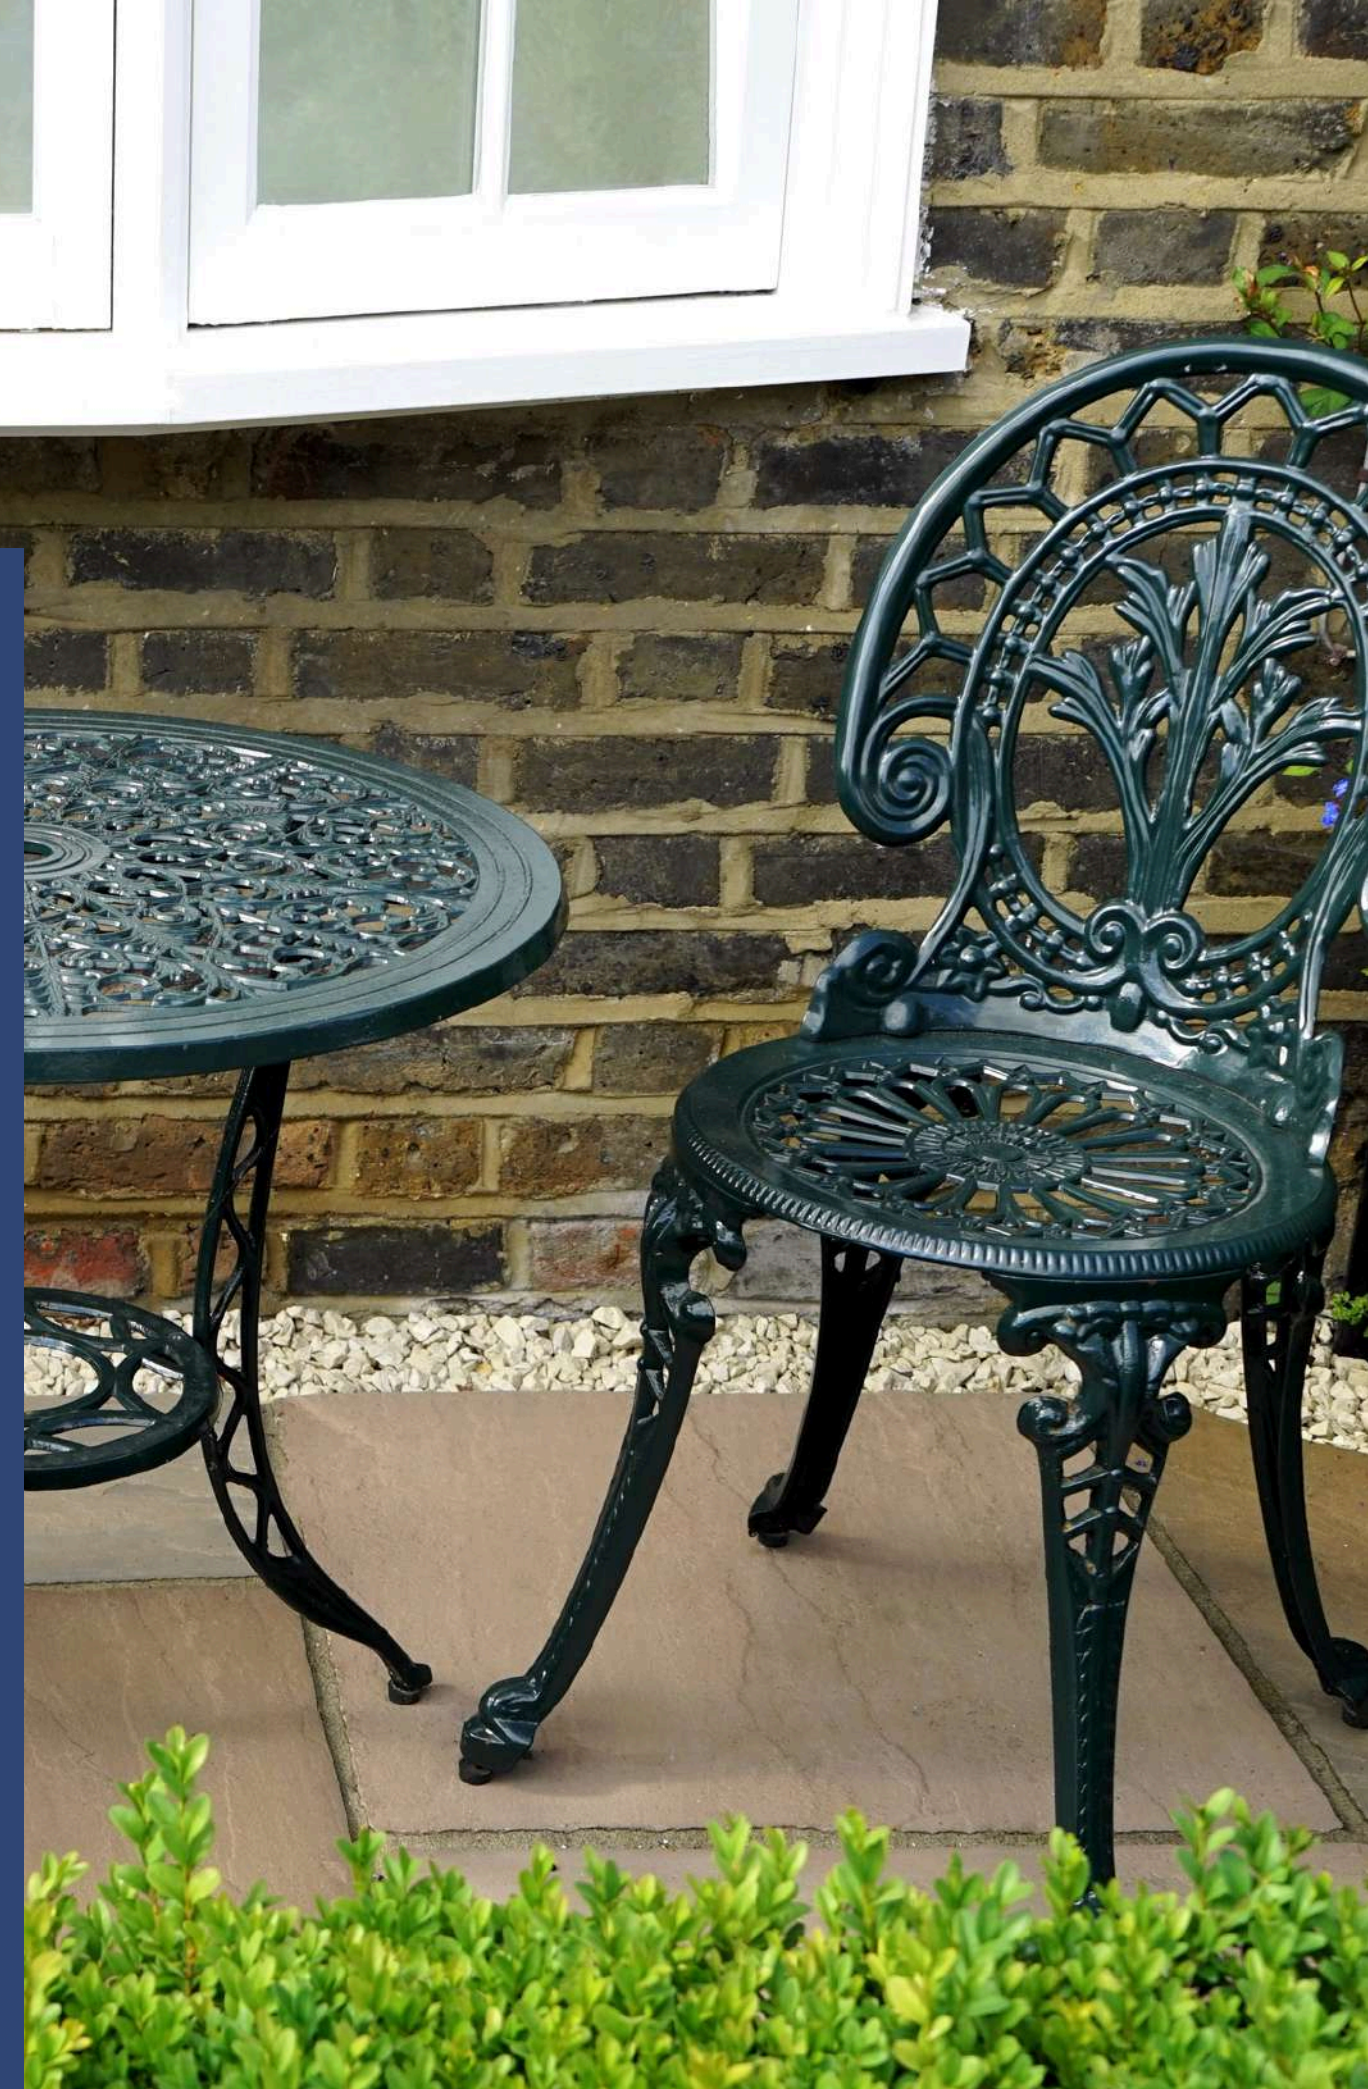

### Our Street & Steel Furniture Products

We offer a wide selection of architectural and urban furniture solutions, including:

- Public Benches & Seating Systems
- Litter Bins & Waste Receptacles
- Cycle Stands & Bike Racks
- Steel Tables & Outdoor Dining Furniture
- Planters & Landscape Features
- Bollards & Barriers (Decorative)
- Ashtrays, Information Kiosks, Display Boards

### Custom Design & Collaboration

Whether you have a vision or need concept-to-execution support, JDS's in-house engineering and fabrication team works with you every step of the way—from initial design drafts to installation. Our products can be customized in size, color, finish, material, branding, and functionality to suit your specific requirements.

WE OFFER

# POLES AND BRACKETS

## Reliable Steel Infrastructure for Lighting, Signage & Urban Systems

At JDS – Al Jawda Steel, we design, fabricate, and supply a wide range of steel poles and brackets tailored for infrastructure, urban development, utility, and lighting projects across the UAE and GCC. Our products are built with precision engineering, weather resistance, and long-term durability to perform in the region's toughest environments.

Whether it's for street lighting, traffic signs, CCTV installations, or architectural projects, JDS delivers high-quality, custom-built solutions that meet local regulations and global standards.

### Our Product Range

- Lighting Poles
- CCTV & Camera Poles
- Signage & Traffic Poles
- Decorative Poles
- Pole Brackets & Arms

### Features & Specifications

- **Materials:** Galvanized Steel, Stainless Steel (304/316), and Powder-Coated Finishes
- **Design Options:** Conical, Cylindrical, Octagonal, Swaged or Welded Construction
- **Custom Heights & Mounting Configurations**
- **Corrosion & UV-Resistant Coatings**
- **Anchor Base, In-Ground & Flange Mount Options**

WE OFFER

# RACKING & WAREHOUSE SOLUTIONS

## Maximize Space. Optimize Operations. Store Smarter.

At JDS – Al Jawda Steel, we deliver high-performance warehouse racking systems and industrial storage solutions engineered to support the demanding needs of modern logistics, distribution, and manufacturing environments across the UAE and GCC.

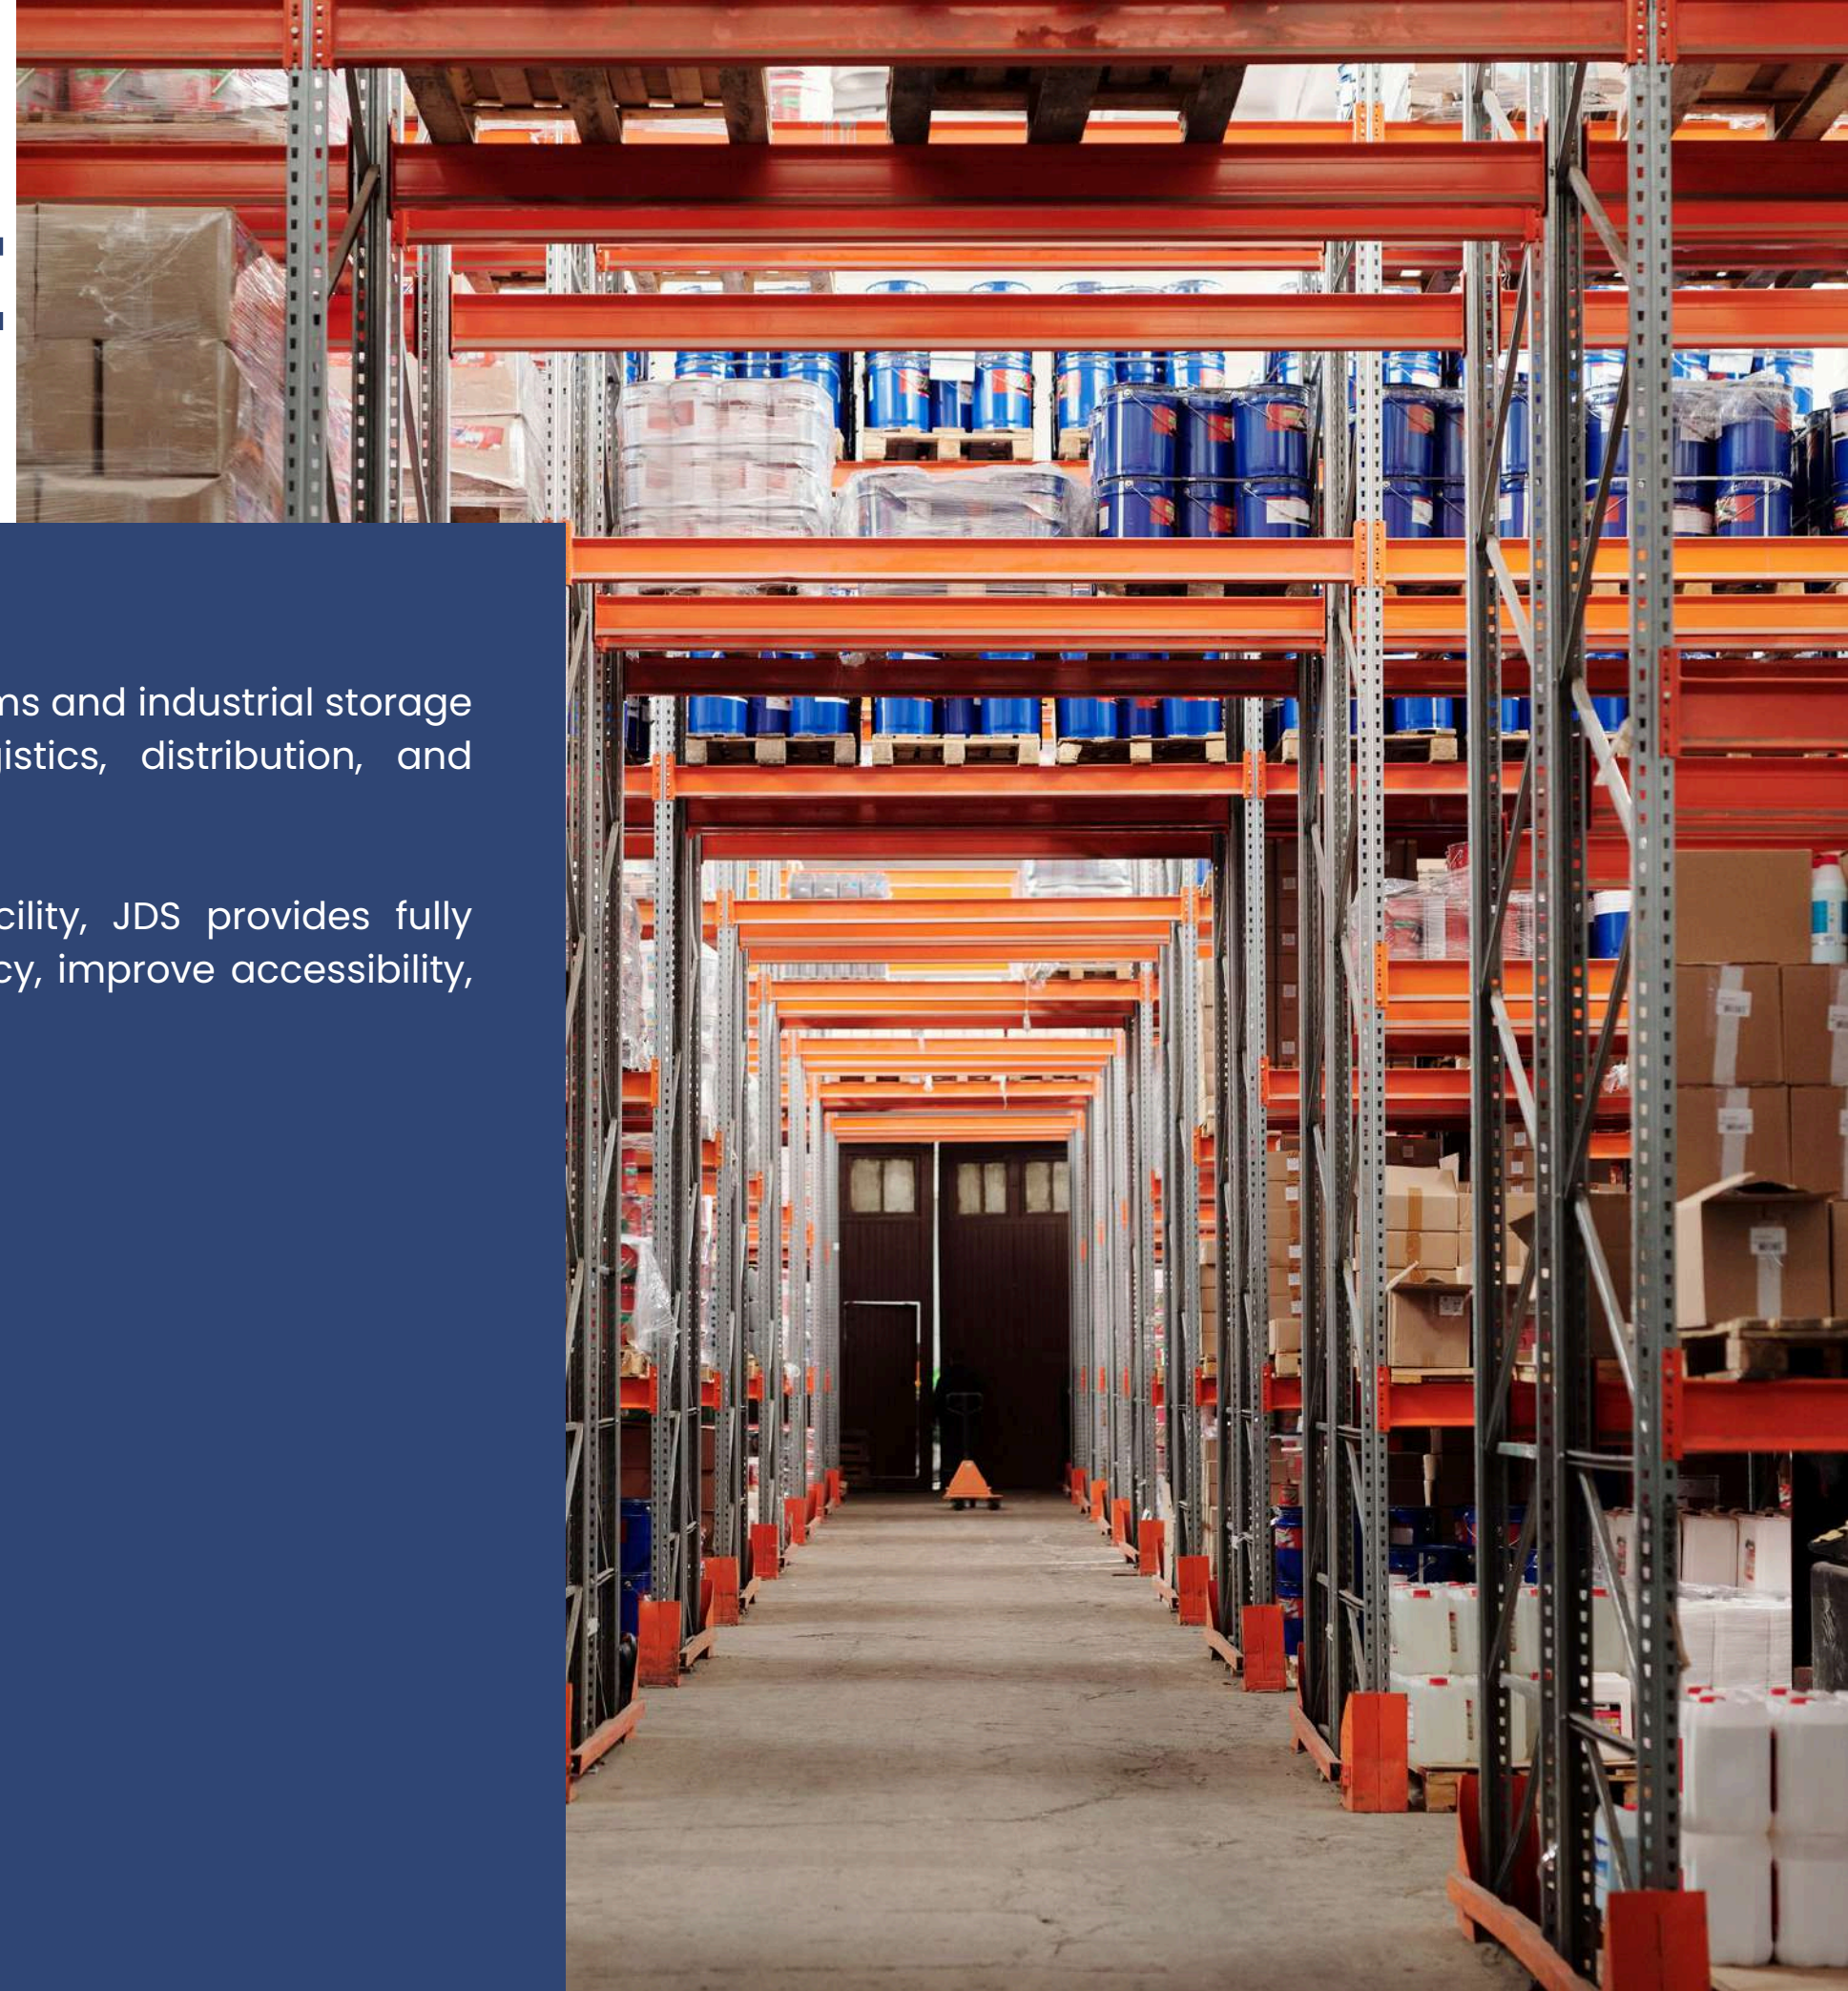

Whether you're setting up a new warehouse or upgrading an existing facility, JDS provides fully customized steel racking and shelving systems that enhance storage efficiency, improve accessibility, and increase overall productivity.

### Our Racking & Storage Products

- Pallet Racking Systems
- Heavy-Duty Shelving Systems
- Mezzanine Floors & Raised Storage Platforms
- Cantilever Racking
- Mobile & Adjustable Storage Systems

### Applications Across Sectors

- Logistics & Distribution Centers
- Manufacturing Facilities
- Automotive Warehouses
- Food & Beverage Storage
- Cold Chain & Temperature-Controlled Units
- Retail & E-commerce Fulfillment Centers
- Government, Defense & Civil Projects

WE OFFER

# SOLAR STRUCTURES

## Precision-Engineered Steel Solutions for Solar Energy Projects

At JDS, we design and fabricate high-quality solar mounting structures engineered to withstand the harsh climate of the UAE and the Middle East. Our steel solutions are built to support solar energy projects of any scale, ensuring durability, efficiency, and long-term performance.

### Our Process

1. Design Consultation → Understanding your project's structural and energy needs.
2. Engineering & Detailing → Creating CAD-based, precision-engineered drawings.
3. Fabrication → Manufacturing solar mounting systems with strict quality control.
4. Delivery & Support → Ensuring seamless logistics and technical assistance.

### Applications

- Commercial Rooftop Solar Systems
- Utility-Scale Solar Farms
- Off-Grid Solar Installations
- Industrial Solar Power Projects

**With years of expertise in steel structure fabrication, JDS is the trusted partner for developers, EPC contractors, and solar integrators across the UAE.**
